> **!**
> • Your SIM card needs to be activated before you can use it
> • You may be required to purchase CREDIT to activate
> • You will receive your +44 Global phone number once you have completed the activation process

1. ACTIVATE YOUR SIM CARD

1) Visit **rechargeminutes.com** or download and open the **JT TravelApp** (available from the App store or Google Play)

2) Enter the SERIAL CODE printed on your SIM card

PUK: 22222222

GET STARTED
rechargeminutes.com or download our FREE app from jttravelapp.com
1. **ACTIVATE** your SIM to use
2. **PURCHASE** credit and data bundle
3. **MANAGE** your account

All-in-one SIM
Works with all compatible devices

To activate your SIM, enter the number printed below ↓

SERIAL CODE

2. SETUP YOUR DEVICE

1) Ensure your device is unlocked and works with any of these frequencies: 3G (850 MHz, 1900 MHz) 4G (700MHz, 850MHz, 1900MHz, 1700/2100MHz, 2300 MHz).

2) Choose the correct SIM size required for your device and push it out from the plastic card.

3) Turn off your device and insert the SIM in the SIM slot or tray.

4) Turn your device on. Once connected to a network, enable data roaming. **You are good to go!**

Refer to **ekit.com/ekit/UserGuide** for more information.

3. ACCESS & MANAGE YOUR ACCOUNT

Use the **JT TravelApp** (jttravelapp.com) or visit **rechargeminutes.com** to manage your account:

> Log in using your +44 Global phone number and PIN chosen during activation
>
> • Add or recharge credit
> • Enhance your service by purchasing an add-on like data plans or +1 US number
> • Review your balance, usage and receipts
> • Check latest information on coverage and rates

You can also add credit by calling **181** from your device (free of charge).

4. USING THE SERVICE

Turn your device on and when the device registers with a network it is ready for use.

MAKING A CALL

Dial:

| + | country code | area code | phone number |

Example, to call (03) 9674-7000 in Melbourne, Australia you need to dial:

| + | 61 | 3 | 96747000 |

Please note, you must dial the country code even if you are making a local or national call and drop the leading zero if the number you are calling has one.

Your calling experience will vary based on country. In some countries callback technology is used (a method of keeping your international calls at low-cost). You will experience one of the following:

DIRECT CALLING

After dialing the number:

- Your call will be placed and connected as if you were back home

You will experience direct calling in most of Europe, Australia, NZ, USA and more

CALL BACK

After dialing the number:

- Your call will be disconnected for 10 to 30 seconds and then your phone will callback

- Answer the call. After a few seconds your call will be connected

For more information about the calling experience in your destination visit:
ekit.com/ekit/UserGuide

SENDING A TEXT MESSAGE

Compose your message as normal, entering the number you wish to send the message to, remembering to include the country code and area code.

Dial:

| + | country code | area code | phone number |

Example, to send a text to (04) 9674-7000 in Melbourne, Australia you need to dial:

| + | 61 | 4 | 96747000 |

5. SETTING UP DATA AND INTERNET

|	ANDROID	APPLE
1.	Open the **'Settings'** app on your device and search for **'Roaming'.**		
2.	Select **'Roaming'** or **'Data Roaming'** from the search results.		
3.	Enable **'Roaming'** or **'Data Roaming'.** Press **'OK'** if any warnings are shown.		

You should now be able to use mobile data on your device.

To troubleshoot, refer to **ekit.com/ekit/UserGuide** or call Customer Service.

24/7 Customer Service

If you require assistance, please contact us in one of the following ways:

1. Visit **rechargeminutes.com** and click on the **Contact us!** tab at the bottom of the page
